Objective of the Program	Learning towards management of Chronic Kidney disease patients with resistant hypertension

Detailed report of the program

On 28.07.2026, the program was conducted in the above mentioned venue with the Dean along with all faculties, postgraduates and undergraduates. The event began with the welcome address and the lighting of the lamp by the dignitaries and the HOD of General Medicine, followed by the Thamizhthaai Vaazhthu.

The program started with a walkathon from Tagore engineering college to Tagore medical college followed by a speech by Dr D. Rajasekar, Nephrologist from Tagore Medical College and Hospital. It was a very informative session. The speaker discussed about the resistant hypertension involved in Chronic Kidney Disease patients while also explaining the treatment modalities and as well as the side-effects for the same. This was followed by video demonstration of dialysis treatment done for CKD patients done by the dialysis team from TMCH.

The dialysis team also created awareness for World Kidney day in the form of artwork as well. The event concluded with the Vote of thanks and the event turned out to be an informative and a great learning experience for everyone.
