CAREER COUNSELING PROGRAM

COURSE TITLE: CAREER OPTIONS AFTER MBBS

COURSE OBJECTIVE:

This course is designed to provide an insight to the graduating MBBS students on the various career options available for them.

COURSE DURATION: 1 hour

STAKEHOLDERS: Pre-Final and Final Year MBBS

COURSE CONTENT:

After completing MBBS, there are many different career options available to you. Some of the most popular options include:

Session I. (30 min.)

A) Pursuing specialization through MD/MS: This is the most common option for MBBS graduates. It allows you to specialize in a particular field of medicine, such as surgery, pediatrics, or internal medicine.

B) Working as a general practitioner: This is another popular option. General practitioners provide primary care to patients.

Session II. (30 min.)

A) Joining the pharmaceutical industry: The pharmaceutical industry employs MBBS graduates in a variety of roles, such as research, development, and marketing.

B) Entering medical research: Medical research is a growing field that offers many opportunities for MBBS graduates. You can work in academia, government, or the private sector.

C) Opting for administrative roles in healthcare: There are many administrative roles available in healthcare, such as hospital management, public health, and healthcare policy.

In addition to these popular options, there are also many **alternative career options** available to MBBS graduates. These include:

Medical writing: Medical writers create content for a variety of audiences, such as patients, healthcare professionals, and the general public.

Healthcare consulting: Healthcare consultants provide advice to hospitals, clinics, and other healthcare organizations.

(Affiliated to the Tamil Nadu Dr.MGR Medical University & Recognized by the Ministry of Health & Family welfare. Govt. of India New Delhi)

Medical education: Medical educators teach medical students, residents, and other healthcare professionals.

Medical journalism: Medical journalists report on healthcare issues for newspapers, magazines, and websites.

Public health: Public health professionals work to improve the health of populations.

Healthcare administration: Healthcare administrators manage the operations of hospitals, clinics, and other healthcare organizations.

The best career option for you will depend on your interests, skills, and goals. It is important to explore all of your options and choose the one that is right for you.
