affiliated to the Tamil Nadu Dr.MGR Medical University & Recognized by the Ministry of Health & Family welfare. Govt. of India New Delhi)

## GRADUATE ATTRIBUTES

The graduate attributes describe the qualities, knowledge and capabilities that students are encouraged to take responsibility for developing throughout their studies at the medical college, that gets transferred in their real time professional settings.

The National Medical Commission (NMC) envisages the Indian Medical Graduates to be equipped with essential knowledge, skills, attitudes, values, and responsiveness that reinforces them to execute their responsibility appropriately & effectively as a physician of first contact in the community. Tagore Medical College and Hospital epitomize the philosophy of transforming students into clinician leaders through its various teaching programs entwined with well-defined graduate attributes. The following attributes are framed in alignment with those defined by the NMC and are in line with the vision and mission of the institution.

### ATTRIBUTE 1: Continuous knowledge and Skill development

TMCH upholds that the graduates shall possess a thorough understanding and sound knowledge of diverse fields of medicine and proficiency in wide range of clinical skills that validates their role as successful “clinicians” in the society. A Graduate from the institution will be adept in procedural skills compassing all specialities as expected by the curriculum. This comprises the competencies that will facilitate an intern to examine the patient, identify the patients’ problems, carry necessary investigations and initiate standard treatment as per existing protocols and guidelines.

### ATTRIBUTE 2: Compassion and communication

As prescribed by the NMC, Students of TMCH are taught AETCOM sessions with the goal of creating them as compassionate ‘communicators’. The graduates are trained communicate ethically, effectively and empathetically to the patients and families on the treatment modalities

and technological advances, aimed at relieving pain and suffering for the patient as well as allay the emotional distress in families watching the health struggles of their loved ones.

## ATTRIBUTE 3: Ethical Practice

The institution ensures the Graduates to be upskilled, comprehended and able to implement ethical, legal and humanitarian principles and practices in health care delivery. Tagore medical college graduates gain an acute awareness of professional ethics which includes their legal obligation to always practice medicine according to the Codes and Laws of the country in which they work. The graduates will be keenly aware of and sensitive to the cultural beliefs and practices which impact patients' lives even if these fundamentally differ from a doctor's own beliefs and cultural norms.

## ATTRIBUTE 4: Team work and leadership

TMCH inculcates the importance of team work in patient care through execution of inter-departmental clinical procedures in a hospital setting and efficient leadership in clinical decision making in real time clinical practice settings.

## ATTRIBUTE 5: Digital literacy and life-long learning

The reflection of global digitalisation in the technological advances of medical science had mandated the medical graduates to emerge with commendable skills in integrating cutting edge medical technologies and digital data management in their professional practice. Tagore Medical College and Hospital has sworn to produce techno savvy medical graduates with a desire towards life-long learning and be abreast of medical advances.
