## DEPARTMENT OF BIOCHEMISTRY I MBBS 2023-2024 THEORY TENTATIVE SCHEDULE - March'24

DATE	DAY	TIMINGS	TOPIC	FACULTY
03-02-2024	SAT	9.30 - 10.25 am	Nucleic Acids (DNA & RNA) – its components, functions & structural organization and Meaning for important terminology in Molecular Biology.	Mrs.D.Priscilla
03-07-2024	THU	8.30 - 9.30 am	Overview of Purine synthesis. Concentrate on important steps & regulating enzymes & diseases associated with it. Salvage pathway. Pyrimidine catabolism – Orotic Aciduria.	Dr.Prabhakaran
03-09-2024	SAT	9.30 - 10.25 am	SECOND SATURDAY	
03-11-2024	MON	9.30 - 10.25 am	Pyrimidine catabolism – Orotic Aciduria.	Dr.Prabhakaran
03-12-2024	TUE	8.30 - 9.30 am	Purine and pyrimidine metabolism and associated disorders	Dr.Prabhakaran
13/3/2024	WED	9.30 - 10.25 am	Extraellular matrix	Mrs.Cecilia
16/03/2024	SAT	9.30 - 10.25 am	IA - III	
19/03/2024	TUE	8.30 - 9.30 am	Process involved in DNA replication	Mrs.D.Priscilla
20/03/2024	WED	9.30 - 10.25 am	ANATOMY	
23/03/2024	SAT	9.30 - 10.25 am	Process involved in Transcription and post transcriptional modifications	Dr.Abirami
		1.30 - 3.15 pm	Plasma Proteins , serum gel electrophoresis	Dr.Sundaram
26/03/2024	TUE	8.30 - 9.30 am	Translation of Proteins - Prokaryotic and eukaryotic and post translational modifications	Mrs.Cecilia
27/03/2024	WED	9.30 - 10.25 am	Protein sorting and targeting and folding and unfolding associated disorders	Mrs.D.Priscilla
30/03/2024	SAT	9.30 - 10.25 am	Basics mechanism of regulation of gene expression	Dr.Abirami

## DEPARTMENT OF BIOCHEMISTRY I MBBS 23-24 TEACHING SCHEDULE - APRIL 2024

02-04-2024	TUE	8.30-9.30 am	Mutations types and DNA Repair mechanism	Mrs.Priscilla
03-04-2024	WE D	9.30-10.25 am	Basic mechanism Regulation of gene expression	Dr.Abirami
04-04-2024	THU	1.30-2.15 pm	Isoenzymes , clinical utility of various enzymes	Mrs.Priscilla
		2.30-3.15 pm	DNA preparation and RNA extraction .Hybridization techniques-RFLP,FISH,PCR	Mrs.Priscilla
06-04-2024	SAT	9.30-10.25 am	DNA fingerprinting, Blotting Techniques , Microarray technique.	Dr.Sundarm
09-04-2024	TUE	8.30-9.30 am	Functions of heme, structure, Hemoglobin derivatives with their pathological & Physiological relevance	Dr.Abirami
10-04-2024	WE D	9.30-10.25 am	Heme synthesis and disorders	Dr.Abirami
16-04-2024	TUE	8.30-9.30 am	Heme catabolism , Jaundice , Hemoglobinopathies	Dr.Abirami

## DEPARTMENT OF ORTHOPAEDICS

### TAGORE MEDICAL COLLEGE RATHINAMANGALAM, CHENNAI

#### LESSON PLAN 2023-2024

---

#### Orthopaedics Postgraduate Lesson Plan for First-Year, Second-Year, and Final-Year Students

**Target Audience:** Postgraduate Orthopaedic Students

**Course Duration:** 3 years

**Learning Outcomes:**

- **First Year:** Develop foundational knowledge in musculoskeletal anatomy, basic clinical skills, non-surgical management, and fracture care.
- **Second Year:** Gain advanced knowledge in trauma, musculoskeletal disorders, and the introduction of surgical skills.
- **Final Year:** Master advanced surgical techniques, specialized subspecialties, and leadership roles in clinical practice.

## First Year: Foundational Knowledge and Basic Clinical Skills

**Focus:** Establishing a foundation in musculoskeletal anatomy, basic orthopaedic clinical examination, and the non-surgical management of fractures and common disorders.

Week	Topic	Learning Objectives	Teaching Method	Assessment
1-2	<b>Introduction to Orthopaedics and Musculoskeletal Anatomy</b>	Learn musculoskeletal anatomy (bones, muscles, joints, ligaments) and its relevance to orthopaedic practice.	Lecture, cadaver dissections, 3D models, interactive discussions.	<b>Quiz:</b> Musculoskeletal anatomy (10%)
3-4	<b>Musculoskeletal Examination Techniques</b>	Master examination techniques: inspection, palpation, ROM, and special tests for different joints.	Practical demonstrations, peer practice, case scenarios with standardized patients.	<b>Practical Exam:</b> Joint examination techniques (10%)
5-6	<b>Fractures: Classification and Initial Management</b>	Study fracture classification (closed, open, displaced, non-displaced) and principles of initial management (splinting, immobilization).	Lectures, case studies, group discussions, fracture simulation exercises.	<b>Case-based assessment:</b> Fracture management (15%)
7-8	<b>Imaging in Orthopaedics</b>	Understand the role of X-ray, CT, and MRI in diagnosing fractures and joint diseases. Learn image interpretation basics.	Radiology workshops, case-based image interpretation exercises, group discussion.	<b>Quiz:</b> Image interpretation and diagnosis (15%)
9-10	<b>Bone Healing and Non-Surgical Management of Fractures</b>	Study stages of bone healing and non-surgical interventions like casting, splinting, and traction.	Lecture, case discussions, hands-on casting techniques, group problem-solving.	<b>Case-based discussion:</b> Non-surgical fracture management (10%)

(Affiliated to the Tamil Nadu Dr.MGR Medical University & Recognized by the Ministry of Health & Family welfare. Govt. of India New Delhi)

Week	Topic	Learning Objectives	Teaching Method	Assessment
11-12	<b>Osteoarthritis: Pathophysiology and Management</b>	Learn pathophysiology, risk factors, and management strategies for osteoarthritis (medical, physiotherapy, surgery).	Case-based learning, lecture, small group discussions.	<b>Written Exam:</b> Osteoarthritis management (10%)

## Second Year: Advanced Clinical Skills and Surgical Exposure

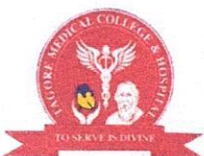

**Focus:** Advanced knowledge of musculoskeletal disorders, introduction to surgical techniques, and management of trauma and infections.

Week	Topic	Learning Objectives	Teaching Method	Assessment
13-14	<b>Rheumatoid Arthritis and Systemic Orthopaedic Diseases</b>	Learn the pathophysiology and systemic effects of rheumatoid arthritis, lupus, and scleroderma. Understand musculoskeletal manifestations.	Lecture, case studies, journal club on systemic diseases.	<b>Case Presentation:</b> Systemic diseases and musculoskeletal effects (15%)
15-16	<b>Pediatric Orthopaedics: Congenital Deformities</b>	Study conditions like DDH, clubfoot, and pediatric fractures. Learn diagnostic methods and treatment options.	Clinical observation, hands-on workshops, group discussions.	<b>Practical Assessment:</b> DDH screening and treatment techniques (10%)
17-18	<b>Spine Disorders: Basic Concepts</b>	Study pathologies like scoliosis, kyphosis, and spinal stenosis. Learn assessment techniques and treatment options.	Lecture, spine examination techniques, case discussions, hands-on workshops.	<b>Case-based Discussion:</b> Spinal disorders (15%)
19-20	<b>Trauma: Management of Open Fractures and Polytrauma</b>	Learn trauma management principles, focusing on open fractures and polytrauma. Understand initial assessment, stabilization, and surgical decision-making.	Trauma simulation workshops, polytrauma scenarios, case-based reviews.	<b>Simulation-based Assessment:</b> Trauma management (20%)

(Affiliated to the Tamil Nadu Dr.MGR Medical University & Recognized by the Ministry of Health & Family welfare. Govt. of India New Delhi)

Week	Topic	Learning Objectives	Teaching Method	Assessment
21-22	<b>Sports Injuries: Knee and Ligament Injuries</b>	Study knee injuries like ACL and PCL tears, meniscus injuries. Understand diagnostic techniques and treatment options.	Practical demonstrations of ligament tests, video analysis of sports injuries.	<b>Practical Exam:</b> Knee ligament tests (10%)
23-24	<b>Infections in Orthopaedics: Osteomyelitis and Septic Arthritis</b>	Learn pathophysiology, clinical features, and management of infections like osteomyelitis and septic arthritis. Understand diagnostic protocols.	Case-based learning, interdisciplinary seminars with microbiologists.	<b>Written Assessment:</b> Musculoskeletal infections (10%)

## Final Year: Advanced Surgical Skills, Specialization, and Leadership

**Focus:** Mastery in surgical techniques, specialized subspecialties, and leadership in clinical practice and surgery.

Week	Topic	Learning Objectives	Teaching Method	Assessment
25-26	<b>Surgical Techniques: Principles of Fracture Fixation</b>	Master advanced fracture fixation techniques including ORIF, external fixation. Study indications, complications, and postoperative care.	Hands-on surgical workshops, cadaver dissections, real-time observation in the operating room.	<b>Practical Exam:</b> Advanced fracture fixation techniques (20%)
27-28	<b>Joint Replacement Surgery (Knee and Hip)</b>	Study indications, techniques, and complications of TKA and THA. Focus on patient selection, preoperative planning, and rehabilitation.	Observation in the operating room, surgical simulation, clinical case discussions.	<b>Case-based Learning:</b> Total knee and hip replacement (15%)

(Affiliated to the Tamil Nadu Dr.MGR Medical University & Recognized by the Ministry of Health & Family welfare. Govt. of India New Delhi)

Week	Topic	Learning Objectives	Teaching Method	Assessment
29-30	<b>Shoulder and Elbow Surgery</b>	Learn techniques for shoulder and elbow arthroplasty, rotator cuff repairs, and arthroscopic surgery. Study postoperative management.	Hands-on workshops, clinical observation, video tutorials on surgical techniques.	<b>Surgical Demonstration:</b> Shoulder and elbow surgeries (10%)
31-32	<b>Orthopaedic Oncology: Bone and Soft Tissue Tumors</b>	Study bone and soft tissue tumors. Understand diagnostic imaging, biopsy techniques, and treatment protocols including excision and chemotherapy.	Case presentations, interdisciplinary tumor board discussions, journal club on orthopaedic oncology.	<b>Case Presentation:</b> Bone and soft tissue tumors (15%)
33-34	<b>Spinal Surgery: Principles and Techniques</b>	Learn advanced spinal surgeries like discectomy, laminectomy, spinal fusion, and tumor resection. Study patient outcomes and complication management.	Practical labs, case-based learning, and observation in spinal surgeries.	<b>Case-based Discussion:</b> Spinal surgery planning (10%)
35-36	<b>Management of Osteoporotic Fractures</b>	Understand osteoporosis, its management, preventive measures, and surgical options for osteoporotic fractures.	Lecture, case-based discussions, collaboration with endocrinologists.	<b>Written Exam:</b> Osteoporotic fractures (10%)
37-38	<b>Hand and Upper Extremity Disorders</b>	Study conditions like carpal tunnel syndrome, fractures, and soft tissue injuries. Learn about their surgical and nonsurgical management.	Practical workshop, clinical observation in hand surgeries.	<b>Practical Exam:</b> Hand examination and diagnosis (15%)
39-40	<b>Foot and Ankle Surgery</b>	Study techniques for treating foot and ankle conditions such as bunions, flatfoot	Hands-on surgical training, clinical observation in foot and ankle surgeries.	<b>Case Study Presentation:</b> Foot and ankle surgeries (10%)

Week	Topic	Learning Objectives	Teaching Method	Assessment
		deformities, and Achilles tendon injuries.		
41-42	<b>Paediatric Orthopaedic Surgery</b>	Learn management of pediatric orthopaedic conditions like limb length discrepancies, hip dysplasia, and fractures. Understand paediatric surgical techniques.	Observation in pediatric orthopaedic clinics, hands-on practice with pediatric patients.	<b>Practical Demonstration:</b> Paediatric orthopaedic procedures (10%)
43-44	<b>Rehabilitation and Postoperative Care in Orthopaedics</b>	Study rehabilitation after major procedures such as joint replacements and spinal surgeries. Learn physiotherapy techniques and protocols.	Group discussions with physiotherapists, clinical observation, case studies on rehabilitation protocols.	<b>Case-based Analysis:</b> Postoperative care and rehabilitation (15%)
45-46	<b>Pain Management in Orthopaedics</b>	Learn pharmacologic and non-pharmacologic pain management techniques for orthopaedic patients. Focus on post-operative and chronic pain management.	Case-based learning, role-play scenarios with pain specialists.	<b>Written Test:</b> Pain management strategies (10%)
47-48	<b>Final Case Presentation and Review</b>	Present a complex orthopaedic case, from diagnosis to postoperative care, using evidence-based practices.	Student-led case presentations, peer feedback, final review lectures.	<b>Final Case Presentation:</b> Complex orthopaedic cases (20%)

## Assessment Breakdown by Year:

Assessment Type	First Year	Second Year	Final Year
Case Presentations	10%	20%	20%
Clinical Skills Evaluation	10%	20%	20%
Written Exams	30%	20%	20%
Research Project and Presentation	10%	20%	10%
Practical Exams	30%	20%	20%
Final Comprehensive Exam	-	-	20%

This lesson plan provides postgraduate orthopaedic students with a clear path from mastering basic skills to becoming proficient in advanced surgical techniques and specialized subspecialty care. It emphasizes a gradual increase in clinical responsibility, surgical exposure, and leadership skills over the course of the program. The comprehensive assessments ensure that students are equipped with the knowledge and skills to excel in the field of orthopaedics.

Number	COMPETENCY The student should be able to	Domain K/S/A/ C	Level K/KH/S H/P	Core (Y/N)	Suggested Teaching Learning method	Suggested Assessment method
<b>Topic: Biochemistry of cancer.</b>		<b>Number of competencies: (02)</b> <b>Number of Hours (02)</b>				
BI10.1	Describe the cancer initiation, promotion oncogenes & oncogene activation. Also focus on p53 & apoptosis	K	KH	Y	Lecture, Small group discussion	Written/Viva voce
BI10.2	Describe various biochemical tumor markers and the biochemical basis of cancer therapy.	K	KH	Y	Lecture, Small group discussion	Written/Viva voce
<b>Topic: Immunology.</b>		<b>Number of competencies: (03)</b> <b>Number of Hours (03)</b>				
BI10.3	Describe the cellular and humoral components of the immune system & describe the types and structure of antibody	K	KH	Y	Lecture, Small group discussion	Written/Viva voce
BI10.4	Describe & discuss innate and adaptive immune responses, self/non-self recognition and the central role of T-helper cells in immune responses.	K	KH	Y	Lecture, Small group discussion	Written/Viva voce
BI10.5	Describe antigens and concepts involved in vaccine development.	K	KH	Y	Lecture, Small group discussion	Written/Viva voce
BI11.1	Describe commonly used laboratory apparatus and equipments, good safe laboratory practice and waste disposal.	K	KH	Y	Lecture, Small group discussion	Written/Viva voce
BI11.2	Describe the preparation of buffers and estimation of pH.	K	KH	Y	Lecture, Small group discussion	Written/Viva voce

Topic: Water and Electrolyte Balance.		Number of Hours (02)				
BI6.7	Describe the processes involved in maintenance of normal pH, water & electrolyte balance of body fluids and the derangements associated with these.	K	KH	Y	Lecture, Small group discussion	Written/Viva voce
Topic: Acid base balance		Number of Hours (02)				
BI6.8	Discuss and interpret results of Arterial Blood Gas (ABG) analysis in various disorders.	K	KH	Y	Lecture, Small group discussion	Written/Viva voce
BI6.9	Describe the functions of various minerals in the body, their metabolism and homeostasis.	K	KH	Y	Lecture, Small group discussion	Written/Viva voce
Topic: Mineral Metabolism		Number of competencies: (07) Number of Hours (05)				
BI6.10	Enumerate and describe the disorders associated with mineral metabolism.	K	KH	Y	Lecture, Small group discussion	Written/Viva voce
Topic : Metabolism Of Hb.		Number of competencies: (07) Number of Hours (06)				
BI6.11	Describe the functions of haem in the body and describe the processes involved in its metabolism and describe porphyrin metabolism.	K	KH	Y	Lecture, Small group discussion	Written/Viva voce
BI6.12	Describe the major types of haemoglobin and its derivatives found in the body and their physiological/ pathological relevance.	K	KH	Y	Lecture, Small group discussion	Written/Viva voce

## Department of Biochemistry LESSON PLAN FIRST MBBS 2023-2024

No.	Competency	No.Of hours	Domain K/S/A/C	LevelK/ KH/SH/ P	Core(Y/N)	Suggested Teaching Learning method	Suggested Assessment method
Chapter 1 : Basic Biochemistry		Number of competencies:(01)					
		Number of Hours (01)					
Objectives : The student must also be able to explain the structure, functions , dysfunctions of cells and its transport mechanism							
BI1.1	Molecular and functional organization of a cell and its sub-cellular components.	1	K	KH	Y	Lecture, Small group discussion	Written assessment/Viva voce
Chapter 2 : Enzyme		Number of competencies:(07)					
		Number of Hours (05)					
Objectives : The student must also be able to explain the Fundamental concepts of enzyme, discuss the clinical utility of various serum enzymes and Interpret laboratory results of enzyme activities							
BI2.1	Fundamental concepts of enzyme, isoenzyme, alloenzyme, coenzyme & co-factors, classes of IUBMB nomenclature.	1	K	KH	Y	Lecture, case discussion	Written assessment/Viva voce
BI2.2	Observe the estimation of SGOT & SGPT		K	K	Y	Demonstration	Viva voce
BI2.3	Describe and explain the basic principles of enzyme activity	1	K	KH	Y	Lecture, case discussion	Written/Viva voce
BI2.4	Describe and discuss enzyme inhibitors as poisons and drugs and as therapeutic enzymes	1	K	KH	Y	Lecture, Small group discussion	Written/Viva voce
BI2.5	Describe and discuss the clinical utility of various serum enzymes as markers of pathological conditions.		K	KH	Y	Lecture, Small group discussion	Written/Viva voce
BI2.6	Discuss use of enzymes in laboratory investigations (Enzyme-based assays)	1	K	KH	Y	Lecture, Small group discussion	Written/Viva voce

## CHAPTER: Basic statistics and its applications

### OBJECTIVES:

- **Research Question Formulation:** Formulate a relevant and focused research question for a study.
- **Statistical Data Handling:** Describe and demonstrate the principles and methods for collecting, classifying, analyzing, interpreting, and presenting statistical data.
- **Elementary Statistical Methods:** Explain and apply elementary statistical methods, including tests of significance, in various study designs.

S.No	Topic	Teaching learning method	Domain K/S/A/C	Level K/KH/SH/P	Number of hours	Suggested Assessment method
CM6.1	Formulate a research question for a study	Lecture, Small group discussion	KH	K	1	Written / Viva voce
CM6.2	Describe and discuss the principles and demonstrate the methods of collection, classification, analysis, interpretation and presentation of statistical data	Lecture, Small group discussion	SH	S	1	Written / Viva voce
CM6.3	Describe, discuss and demonstrate the application of elementary statistical methods including test of significance in various study designs	Lecture, Small group discussion	KH	K	1	Written / Viva voce
CM6.4	Enumerate, discuss and demonstrate Common sampling techniques, simple statistical methods, frequency distribution, measures of central tendency and dispersion	Lecture, Small group discussion	SH	S	1	Written / Viva voce

S.No	Topic	Teaching learning method	Domain K/S/A/C	Level K/KH/SH/P	Number of hours	Suggested Assessment method
CM5.1	Describe the common sources of various nutrients and special nutritional requirements according to age, sex, activity, physiological conditions	Lecture, Small group discussion	KH	K	1	Written / Viva voce
CM5.2	Describe and demonstrate the correct method of performing a nutritional assessment of individuals, families and the community by using the appropriate method	Lecture, Small group discussion	SH	S	1	Written / Viva voce
CM5.3	Define and describe common nutrition related health disorders (including macro-PEM, Micro-iron, Zn, iodine, Vit. A), their control and management CM 5.3.1 & 5.3.2 Define and describe common nutrition related health disorders (including macro-PEM, Micro-iron, Zn, iodine, Vit. A), their control and management	Lecture, Small group discussion	KH	K	1	Written / Viva voce
CM5.4	Plan and recommend a suitable diet for the individuals and families based on local availability of foods and economic status, etc in a simulated environment	Lecture, Small group discussion	SH	S	1	Written / Viva voce
CM5.5	Describe the methods of nutritional surveillance, principles of nutritional education and rehabilitation in the context of socio- cultural factors.	Lecture, Small group discussion	KH	K	1	Written / Viva voce
CM5.6	Enumerate and discuss the National Nutrition Policy, important national nutritional Programs including the Integrated Child Development Services Scheme (ICDS) etc	Lecture, Small group discussion	KH	K	1	Written / Viva voce
CM5.7	Describe food hygiene	Lecture, Small group discussion	KH	K	1	Written / Viva voce/ Skill assessment
CM5.8	Describe and discuss the importance and methods of food fortification and effects of additives and adulteration	Lecture, Small group discussion	KH	K	1	Written / Viva voce

## SECOND PROFESSIONAL MBBS CHAPTER: NUTRITION

### OBJECTIVES:

- **Sources and Nutritional Requirements:** Describe common sources of nutrients and special nutritional requirements based on age, sex, activity, and physiological conditions.
- **Nutritional Assessment:** Describe and demonstrate the correct method of conducting nutritional assessments for individuals, families, and communities.
- **Nutrition-Related Health Disorders:** Define and describe common nutrition-related health disorders (macro-PEM, micro-iron, zinc, iodine, Vitamin A) and their control and management.
- **Diet Planning:** Plan and recommend suitable diets for individuals and families considering local food availability and economic status in a simulated environment.
- **Nutritional Surveillance and Education:** Describe methods of nutritional surveillance, principles of nutritional education, and rehabilitation considering socio-cultural factors.
- **National Nutrition Policy and Programs:** Enumerate and discuss the National Nutrition Policy and key programs like ICDS.
- **Food Hygiene:** Describe the importance and practices of food hygiene.
- **Food Fortification and Adulteration:** Explain the significance of food fortification and the effects of food additives and adulteration.

S.No	Topic	Teaching learning method	Domain K/S/A/C	Level K/KH/SH/P	Number of hours	Suggested Assessment method
CM3.1	Describe the health hazards of air, water, noise, radiation and pollution	Lecture, Small group discussion	K	KH	1	Written / Viva voce
CM3.2	Describe concepts of safe and wholesome water, sanitary sources of water, water purification processes, water quality standards, concepts of water conservation and rainwater harvesting <b>CM3.2.1.</b> Describe the concepts of safe and wholesome water, sanitary sources of water, water purification processes	Lecture, Small group discussion	K	KH	1	Written / Viva voce
CM3.3	Describe the aetiology and basis of water borne diseases /jaundice/hepatitis/ diarrheal diseases	Lecture, Small group discussion	K	KH	1	Written / Viva voce
CM3.4	Describe the concept of solid waste, human excreta and sewage disposal <b>CM 3.4 .1</b> Describe the concept of human excreta and sewage disposal Visit to Sewage treatment plant <b>CM 3.4.2</b> Describe the concept of human excreta and sewage disposal	Lecture, Small group discussion	K	KH	1	Written / Viva voce
CM3.5	Describe the standards of housing and the effect of housing on health CM 3.5.1 Describe the standards of housing and the effect of housing on health CM 3.5.2 Describe the standards of housing and the effect of housing on health in community walk/visit – RURAL FIELD PRACTICE AREA	Lecture, Small group discussion	K	KH	1	Written / Viva voce
CM3.6	Describe the role of vectors in the causation of diseases. Also discuss National Vector Borne disease Control Program	Lecture, Small group discussion	K	KH	1	Written / Viva voce
CM3.7	Identify and describe the identifying features and life cycles of vectors of Public Health importance and their control measures	Lecture, Small group discussion, DOAP session	S	SH	1	Written / Viva voce/ Skill assessment
CM3.8	Describe the mode of action, application cycle of commonly used insecticides and rodenticides	Lecture, Small group discussion	K	KH	1	Written / Viva voce

## Chapter: Principles of health promotion and education

### Objectives:

- **Methods of Health Education:** Describe various methods of health education along with their advantages and limitations.
- **Organizing Health Promotion:** Explain methods of organizing health promotion, education, and counseling activities in individual, family, and community settings.
- **Evaluation of Health Promotion:** Demonstrate and describe the steps involved in evaluating health promotion and education programs.

S.No	Topic	Teaching learning method	Domain K/S/A/C	Level K/KH/SH/P	Number of hours	Suggested Assessment method
CM4.1	Describe various methods of health education with their advantages and limitations	Lecture, Small group discussion	K	KH	1	Written / Viva voce
CM4.2	Describe the methods of organizing health promotion and education and counselling activities at individual family and community settings	Lecture, Small group discussion	K	KH	1	Written / Viva voce
CM4.3	Demonstrate and describe the steps in evaluation of health promotion and education program	Lecture, Small group discussion	K	KH	1	Written / Viva voce

## Chapter: Environmental Health

	Students must be able to know
Objectives	• <b>Health Hazards of Pollution:</b> Describe the health hazards of air, water, noise, radiation, and pollution.
	• <b>Safe Water Concepts:</b> Explain the concepts of safe and wholesome water, sanitary sources, and water purification processes.
	• <b>Water-Borne Diseases:</b> Describe the etiology and basis of waterborne diseases like jaundice, hepatitis, and diarrheal diseases.
	• <b>Solid Waste and Sewage Disposal:</b> Describe the concepts of solid waste, human excreta, and sewage disposal, including sewage treatment.
	• <b>Housing and Health:</b> Explain the standards of housing and their impact on health, with practical understanding through field visits.
	• <b>Vectors and Disease Causation:</b> Describe the role of vectors in disease causation and discuss the National Vector Borne Disease Control Program.
	• <b>Vector Identification and Control:</b> Identify vectors of public health importance, their life cycles, and control measures.
	• <b>Insecticides and Rodenticides:</b> Describe the mode of action and application cycles of commonly used insecticides and rodenticides.

(Affiliated to the Tamil Nadu Dr.MGR Medical University & Recognized by the Ministry of Health & Family welfare, Govt. of India New Delhi)

## Chapter: Relationship of social and behavioural to health and disease

	Students must be able to know
Objectives	• <b>Assessment of Individual, Family, and Community:</b> Perform clinico-socio-cultural and demographic assessments.
	• <b>Socio-Cultural Factors and Family's Role:</b> Explain socio-cultural factors, family types, and their role in health and disease.
	• <b>Barriers to Health:</b> Assess barriers to health and health-seeking behavior in a simulated environment.
	• <b>Social Psychology and Community Behavior:</b> Describe community behavior and relationships and their impact on health.
	• <b>Poverty and Social Security:</b> Explain the impact of poverty and social security measures on health.

S.No	Topic	Teaching learning method	Domain K/S/A/C	Level K/KH/SH/P	Number of hours	Suggested Assessment method
CM2.1	Describe the steps and perform clinico socio-cultural and demographic assessment of the individual, family and community	Lecture, Small group discussion	K	KH	1	Written / Viva voce
CM2.2	Describe the socio-cultural factors, family (types), its role in health and disease & demonstrate in a simulated environment the correct assessment of socio-economic status	Lecture, Small group discussion	K	KH	1	Written / Viva voce
CM2.3	Describe and demonstrate in a simulated environment the assessment of barriers to good health and health seeking behavior	Lecture, Small group discussion	K	KH	1	Written / Viva voce
CM2.4	Describe social psychology, community behaviour and community relationship and their impact on health and disease	Lecture, Small group discussion	K	KH	1	Written / Viva voce
CM2.5	Describe poverty and social security measures and its relationship to health and disease	Lecture, Small group discussion	K	KH	1	Written / Viva voce

## Chapter- Health care of the community

	<b>Students must be able to know</b>
<b>Objectives</b>	<ul style="list-style-type: none"> <li>• <b>Health Care to Community:</b> Define and explain the concept of health care and its application in addressing community health needs.</li> </ul>
	<ul style="list-style-type: none"> <li>• <b>Community Diagnosis:</b> Describe the process and importance of community diagnosis in identifying health problems and priorities.</li> </ul>
	<ul style="list-style-type: none"> <li>• <b>Primary Health Care:</b> Explain primary health care, its components, and guiding principles for delivering equitable healthcare services.</li> </ul>
	<ul style="list-style-type: none"> <li>• <b>National Health Policies and Goals:</b> Outline the key national health policies, health planning frameworks, and Millennium Development Goals (MDGs) related to health.</li> </ul>
	<ul style="list-style-type: none"> <li>• <b>Health Care Delivery in India:</b> Describe the structure and functioning of the health care delivery system in India at various levels.</li> </ul>

S.No	Topic	Teaching learning method	Domain K/S/A/C	Level K/KH/SH/P	Number of hours	Suggested Assessment method
CM17.1	Define and describe the concept of health care to community	Lecture, Small group discussion	K	KH	1	Written / Viva voce
CM17.2	Describe community diagnosis	Lecture, Small group discussion	K	KH	1	Written / Viva voce
CM17.3	Describe primary health care, its components and principles	Lecture, Small group discussion	K	KH	1	Written / Viva voce
CM17.4	Describe National policies related to health and health planning and millennium development goals	Lecture, Small group discussion	K	KH	1	Written / Viva voce
CM17.5	Describe health care delivery in India	Lecture, Small group discussion	K	KH	1	Written / Viva voce

## First Professional MBBS Chapter- Concept of Health and Disease

### Objectives:

	Students must be able to know
Objectives	• <b>Public Health:</b> Define and explain the concept and significance of public health in improving community well-being.
	• <b>Family Health Survey and Community Needs Assessment:</b> Understand and apply the principles of family health surveys and community needs assessment in planning health interventions.
	• <b>Health and Holistic Health:</b> Define health and describe the concept of holistic health, including spiritual health and its determinants.
	• <b>Agent, Host, and Environment in Health and Disease:</b> Identify and describe the roles of agent, host, and environmental factors in health and disease, emphasizing multi-factorial causation.
	• <b>Natural History of Disease:</b> Explain the natural history of disease and its importance in identifying intervention points.
	• <b>Levels of Prevention:</b> Apply interventions at various levels of prevention to address health issues effectively.
	• <b>Health Promotion and Education:</b> Describe the principles of health promotion, education, IEC, and behavioral change communication in improving health outcomes.
	• <b>Health Indicators:</b> Enumerate and explain health indicators to assess community health.
	• <b>Demographic Profile of India:</b> Describe India's demographic profile and analyze its impact on health and healthcare planning.
	• <b>Communication Skills in Health:</b> Demonstrate effective communication skills in simulated healthcare environments.
	• <b>Doctor-Patient Relationship:</b> Exhibit the key elements of the doctor-patient relationship through simulated scenarios.

## DEPARTMENT OF ORTHOPAEDICS TAGORE MEDICAL COLLEGE

### LESSON PLAN UG STUDENTS

Number	COMPETENCY The student should be able to:	Domain K/S/A/C	Level K/KH / SH/P	Core (Y/N)	Suggested Teaching Learning method	Suggested Assessment method
--------	--	-------------------	-------------------------	---------------	---------------------------------------	--------------------------------

## ORTHOPEDICS

Topic: Skeletal Trauma, Poly trauma

Number of competencies : (06)

Number of procedures that require certification: (NIL)

OR1.1	Describe and discuss the Principles of pre-hospital care and Casualty management of a trauma victim including principles of triage	K/S/A/C	K/KH	Y	Lecture with video, Small group discussion	Written/ Viva voce/ OSCE/ Simulation
OR1.2	Describe and discuss the aetiopathogenesis, clinical features, investigations, and principles of management of shock	K/S	K/KH	Y	Lecture	Written/ Viva voce/ OSCE/ Simulation
OR1.3	Describe and discuss the aetiopathogenesis, clinical features, investigations, and principles of management of soft tissue injuries	K	KH/SH	Y	Lecture, Small group discussion	Written/ OSCE
OR1.4	Describe and discuss the Principles of management of soft tissue injuries	K	K/KH	Y	Lecture, Small group discussion	Written/ Assesment/ Viva voce
OR1.5	Describe and discuss the aetiopathogenesis, clinical features, investigations, and principles of management of dislocation of major joints, shoulder, knee, hip	K	K/KH	Y	Lecture, Small group discussion, Bed side clinic	Written/ Viva voce/ OSCE/ Simulation
OR1.6	Participate as a member in the team for closed reduction of shoulder dislocation / hip dislocation / knee dislocation	K/S/A/C	SH	Y	Simulation, DOAP session	OSCE/ Simulation

Number	COMPETENCY The student should be able to:	Domain K/S/A/C	Level K/KH / SH/P	Core (Y/N)	Suggested Teaching Learning method	Suggested Assessment method
OR9.1	Describe and discuss the aetiopathogenesis, clinical features, assessment and principles of management of Cerebral palsypatient	K	K/KH	Y	Lecture, Small group discussion	Written/ Viva voce/ OSCE

Topic: Bone Tumors

Number of competencies : (01)

Number of procedures that require certification: (NIL)

OR10.1	Describe and discuss the aetiopathogenesis, clinical features, investigations and principles of management of benign and malignant bone tumours and pathological fractures	K	K/KH	Y	Lecture, Small group discussion, Video assisted interactive lecture	Written/ Viva voce/ OSCE
--------	--	---	------	---	---	--------------------------

Topic: Peripheral nerve injuries

Number of competencies : (01)

Number of procedures that require certification: (NIL)

OR11.1	Describe and discuss the aetiopathogenesis, clinical features, investigations and principles of management of peripheral nerveinjuries in diseases like foot drop, wrist drop, claw hand, palsies ofRadial, Ulnar, Median, Lateral Popliteal and Sciatic Nerves	K	K/H	Y	Lecture, Small group discussion, case discussion	Written/ Viva voce/ OSCE
--------	---	---	-----	---	--	--------------------------

Topic: Congenital lesions

Number of competencies : (01)

Number of procedures that require certification: (NIL)

OR12.1	Describe and discuss the clinical features, investigations and principles of management of Congenital and acquired malformations and deformities of: a. limbs and spine - Scoliosis and spinal bifida b. Congenital dislocation of Hip,Torticollis, c. congenital talipes equino varus	K	KH	Y	Lecture, Small group discussion	Written/ Viva voce/ OSCE
--------	---	---	----	---	---------------------------------	--------------------------

Topic: Procedural Skills

Number of competencies : (02)

Number of procedures that require certification: (NIL)

Number	COMPETENCY The student should be able to:	Domain K/S/A/C	Level K/KH / SH/P	Core (Y/N)	Suggested Teaching Learning method	Suggested Assessment method
OR13.1	Participate in a team for procedures in patients and demonstrating the ability to perform on mannequins / simulated patients in the following: i. Above elbow plaster ii. Below knee plaster iii. Above knee plaster iv. Thomas splint v. splinting for long bone fractures vi. Strapping for shoulder and clavicle trauma	S/A	KH / SH	Y	Case discussion, Video assisted Lecture, Small group discussion, Teaching, Skill lab sessions	OSCE with Simulation based assessment
OR13.2	Participate as a member in team for Resuscitation of Polytraumavictim by doing all of the following : (a) I.V. access central - peripheral (b) Bladder catheterization (c) Endotracheal intubation (d) Splintage	S/A	KH / SH	Y	Case discussion, Video assisted Lecture, Small group discussion, Teaching, Skill lab sessions	OSCE with Simulation based assessment

### Topic: Counselling Skills

Number of competencies : (03)

Number of procedures that require certification: (NIL)

OR14.1	Demonstrate the ability to counsel patients regarding prognosis in patients with various orthopedic illnesses like a. fractures with disabilities b. fractures that require prolonged bed stay c. bone tumours d. congenital disabilities	K/S/A/C	KH / SH	Y	Case discussion, Video assisted lecture, Small group discussion, Teaching, Skills lab sessions	OSCE with Simulation based assessment
OR14.2	Demonstrate the ability to counsel patients to obtain consent for various orthopedic procedures like limp amputation, permanent fixations etc..	K/S/A/C	KH / SH	Y	Case discussion, Video assisted Lecture, Small group discussion, Teaching, Skills lab sessions	OSCE with Simulation based assessment

## CURRICULUM COMMITTEE MEETING

### MINUTES OF THE MEETING

Meeting	Curriculum Committee Meeting
Date	08.03.2023
Venue	Lecture hall – 1
Agenda	<ol style="list-style-type: none"><li>1. Implementation of alignment and integration of topics as per CBME framework.</li><li>2. Discuss initiatives for continuous training and development programs for faculty to stay abreast of evolving medical education methodologies and technologies.</li><li>3. Explore opportunities for interdisciplinary collaboration within the institution to enrich the educational experience and provide a holistic understanding of healthcare.</li></ol>
Members attended	Dean Medical Superintendent HODs of Clinical and Non-Clinical Departments

#### Minutes of the Meeting:

- Identification of key areas for alignment and enhancement within the existing curriculum structure was a primary focus.
- Exploration of innovative teaching methodologies and instructional approaches was undertaken to align the MBBS program with the updated CBME curriculum.
- Advocacy for a paradigm shift towards competency-based learning was emphasized, with a specific focus on the development of practical skills and real-world applications.
- The exploration of methods to incorporate hands-on experiences, simulations, and case studies into the curriculum was discussed to enhance students' clinical competence.
- Addressing the importance of strengthening foundational sciences to build a robust academic foundation for students was a key consideration.
- Opportunities for early clinical exposure were explored to provide students with hands-on experience and a deeper understanding of medical practice from the outset.

## Action Taken Report

### Curriculum Committee Meeting held on 08.03.2023

Following the Curriculum Committee Meeting held on 08.03.2023, several strategic actions were identified to address the key agenda items. The committee formed a subcommittee tasked with identifying areas for alignment within the existing curriculum and proposing specific changes to align the MBBS program with the updated CBME curriculum. Regular follow-up meetings were scheduled to track progress and ensure timely implementation. Additionally, a faculty development program was established to focus on continuous training in evolving medical education methodologies and technologies. Department heads were assigned responsibilities to monitor faculty participation in external workshops and training sessions.

To foster interdisciplinary collaboration within the institution, a working group was created, and department heads were encouraged to propose initiatives for integration into the curriculum. The committee recognized the importance of competency-based learning and developed a plan to transition towards this approach, emphasizing practical skills and real-world applications. Resources and training programs were identified to support faculty in implementing competency-based strategies, with progress closely monitored.

To enhance the curriculum, the committee allocated resources for the creation of hands-on experiences, simulations, and case studies. A coordinator was appointed to oversee this integration. The foundational sciences received special attention, with a commitment to reviewing and revising the curriculum to ensure a robust emphasis on these subjects. Faculty members were provided with training and resources to enhance their teaching of foundational science subjects.

Recognizing the significance of early clinical exposure, a task force was formed to explore opportunities for students. Collaboration with affiliated hospitals and healthcare institutions was encouraged to facilitate hands-on experiences, with continuous monitoring and feedback mechanisms in place for improvement.

Lastly, the committee developed a plan to integrate communication skills training into the curriculum. Faculty members were provided with resources and tools to incorporate communication skills development into their teaching, with ongoing evaluation of effectiveness through student feedback and assessment results. The committee emphasized the importance of regular follow-up meetings to review progress, established reporting mechanisms for department heads, and considered the formation of additional subcommittees or working groups as needed.

The next Curriculum Committee Meeting was scheduled to assess the outcomes of the implemented actions and address any emerging issues, ensuring a dynamic and responsive approach to curriculum enhancement.

## CURRICULUM COMMITTEE MEETING MINUTES OF THE MEETING

Meeting	Curriculum Committee Meeting
Date	22.05.2023
Venue	Lecture hall – 1
Agenda	<ol style="list-style-type: none"><li>1. Development of teaching-learning materials and resources</li><li>2. Discuss ways to integrate emerging technologies into the curriculum to enhance teaching methodologies for collaborative learning.</li><li>3. Consider strategies to ensure inclusivity in educational materials, accommodating diverse learning styles, and addressing the needs of students with different backgrounds and abilities.</li></ol>
Members attended	Dean Medical Superintendent HODs of Clinical and Non-Clinical Departments

### Minutes of the Meeting:

- Identified essential updates essential for curriculum alignment, meticulously considering the latest guidelines and national standards to maintain educational excellence.
- Delved into the exploration of state-of-the-art technologies and innovative pedagogical tools, aiming to enrich the overall learning experience and align the educational approach with the evolving CBME curriculum.
- Engaged in thoughtful discussions advocating for competency-based learning, where the emphasis lies not only on theoretical knowledge but also on the acquisition of practical skills crucial for real-world applications.
- Explored viable options for the establishment of dedicated clinical skills labs and practical training modules, providing students with immersive, hands-on experiences to deepen their understanding of medical practices.
- Placed heightened emphasis on the integration of communication skills training and workshops focusing on interpersonal skills, recognizing their pivotal role in shaping future healthcare practitioners.

PEH-2020-1369

- Emphasis was placed on the significance of communication and soft skills in medical education, with discussions on strategies to integrate communication skills training into the curriculum.

## Action Taken Report

### Curriculum Committee Meeting held on 22.05.2023

In response to the agenda items discussed during the Curriculum Committee Meeting on May 22, 2023, several strategic actions were taken to enhance the educational framework. A subcommittee was formed to spearhead the development of teaching-learning materials, identifying essential updates for curriculum alignment in accordance with the latest guidelines and national standards. Simultaneously, a task force was established to explore and integrate emerging technologies into the curriculum, promoting interactive and collaborative learning. The committee recognized the importance of inclusivity in educational materials and initiated a comprehensive review process, including faculty training on inclusive teaching practices.

To reinforce the emphasis on competency-based learning, a feasibility study was commissioned for dedicated clinical skills labs, and practical training modules were explored to provide students with immersive, hands-on experiences aligned with real-world medical practices. Communication skills training was integrated into the curriculum, with a faculty development program initiated to equip educators with effective teaching methodologies. The committee also addressed the creation of high-quality teaching materials, forming a working group to develop interactive multimedia presentations and e-learning modules.

Acknowledging the need for a centralized repository, the committee initiated the development of a platform to facilitate seamless collaboration among faculty members, encouraging resource-sharing and fostering a collective effort toward continuous improvement. To support these initiatives, a continuous faculty development program was instituted, ensuring educators are equipped with the necessary skills for effective implementation of innovative teaching methodologies.

Periodic reviews and a reporting system were established to assess progress, with plans for the next Curriculum Committee Meeting to evaluate outcomes and strategize further improvements, reflecting the committee's commitment to advancing medical education.

## Action Taken Report

### Curriculum Committee Meeting held on 17.08.2023

Following the Curriculum Council Meeting on August 17, 2023, decisive actions were taken to address the identified agenda items. To enhance the assessment and feedback mechanisms in the CBME curriculum, a subcommittee was formed to explore and implement strategies for providing constructive feedback to students.

This initiative aims to promote continuous improvement and self-directed learning, ensuring a dynamic and responsive educational environment. In response to the discussion on the incorporation of training modules focused on ethical considerations and cultural competence, plans were set in motion to integrate case studies and role-playing scenarios into the curriculum. These additions are designed to prepare students for diverse patient populations by addressing ethical dilemmas and cultural nuances in a practical context.

Additionally, the committee delved into the possibility of implementing longitudinal assessment strategies to track student progress over the entire duration of the program. This involved the formation of a working group to develop a framework for ongoing, comprehensive assessments, recognizing the benefits of such strategies in identifying areas for improvement and supporting students' professional development throughout their medical education journey.

The actions taken underscore the commitment of the Curriculum Council to foster a holistic and forward-thinking approach to medical education, emphasizing continuous improvement, ethical considerations, and cultural competence. The progress of these initiatives will be closely monitored and further discussed in subsequent meetings to ensure their effectiveness and relevance to the evolving needs of medical education.

## Action Taken Report

### Curriculum Committee Meeting held on 21.11.2023

In response to the agenda items discussed during the Curriculum Council Meeting on November 21, 2023, the council took comprehensive actions to enhance the CBME curriculum implementation. To address the monitoring and evaluation of the curriculum, a dedicated subcommittee was formed to implement ongoing strategies, utilizing key performance indicators and feedback mechanisms to assess the curriculum's effectiveness and identify areas for refinement.

Recognizing the need to incorporate a global perspective into medical education, the council initiated plans to integrate case studies and comparative analyses of healthcare systems worldwide, preparing students for a diverse and interconnected healthcare landscape by considering international medical standards and practices.

Furthermore, in acknowledgment of the challenges and stressors faced by medical students, the council prioritized the integration of components related to mental health and well-being into the curriculum. A working group was established to develop modules on self-care, stress management, and resources for seeking mental health support, fostering a healthy and supportive learning environment.

These actions underscore the commitment of the Curriculum Council to continually enhance the curriculum, ensuring it aligns with educational objectives, prepares students for global healthcare contexts, and prioritizes the mental health and well-being of medical learners. Regular assessments and updates will be implemented to gauge the impact and relevance of these initiatives.

## CURRICULUM COUNCIL

### MINUTES OF THE MEETING

Meeting	ACADEMIC AND CURRICULUM COUNCIL MEETING
Date	28.02.2024
Venue	Lecture hall — 1
Agenda	1.Publication works, research works e-journals 2. Academic/sports/cultural and other extra-curricular activities
Members attended	Dean Medical Superintendent HODs of Clinical and Non-Clinical Departments

### Minutes of the Meeting:

The Academic and curriculum council meeting was conducted on 28<sup>th</sup> February 2024 with the HODs of both clinical and non-clinical departments. The following issues were discussed in the meeting by the Academic coordinator:

1. All the undergraduate students —2nd year, pre- final year and final year students should attend their clinical classes for which they are posted regularly and in time. Respective departmental faculties are instructed to take clinical classes regularly for these students.
2. Theory classes should be attended by the undergraduate students regularly and in time in their respective lecture halls as per their schedule.
3. Publication works, research works and e-journal submissions should be undertaken by the students with the help of their faculties.
4. Attending the academic/sports/cultural and other extra-curricular activities in other institutions allowed once in 3 months i.e., 4 times a year for students belonging to each academic year.
5. 1<sup>st</sup> year PG students should start attending the basic sciences class with the concurrence of HODs of respective departments, PG coordinator and Dean.
6. 1<sup>st</sup> year PG students should select the thesis topics and the same should be intimated to the university through HODs of respective departments, PG coordinator and Dean.
7. Final year PG students should submit status of their thesis work/publications/E-journal/Research work. PG students should submit at least 1 publication per year and at the end of their course. They should have published at least 3 publications.
8. Skill labs should be utilized regularly by CRRI/PG and Young resident doctors.

### **Minutes of Meeting**

**Date: 27-05-2024**

**Academic council committee meeting was conducted on 24-05-2024 at M.E.U. Room between 2.00 PM to 3.15 PM.**

**Dr. Farook welcomed the members.**

**Dean Chaired the session.**

**Meeting was attended by Vice Principal, Director, Head of Departments and other faculties.**

**Following Agenda were discussed.**

**1. Regarding CRMI's.**

**Log book Maintenance strict adherence to the attendance**

**Motivation to undertake research work.**

**2. Faculty Development Program.**

**Since there was no FDP in our college for some time this subject was raised**

**Dr. Gopalan answered. He said this activity will be resumed in a few month time.**

**3. Feedback form from the students.**

**All the coordinators was requested to arrange for feedback forms for the students and get it filled twice in a year and hand it over to the Dean office.**

**4. Ethics training**

**Basic life support training for Post graduates**

**PGs student coordinators were requested to coordinate with Ethics**

**Committee and HOD, Department of Anesthesia for basic life support and arrange for the training.**

**5. Alumini Association**

Dr. Kasthuri said she will take care of this activity.

**6. HODs are requested to motivate their faculties to do publication/research work for NMC and NAAC purposes.**

Dr. Farook gave vote of thanks.

## **ACADEMIC COUNCIL MEETING**

### **MINUTES**

**Date: 24-07-2024.**

The Academic Council Meeting was conducted on 22-07-2024, Monday at MEU Room between 2.00 PM to 3.00 PM.

Director, Dean, Medical Superintendent, Vice Principal chaired the meeting.

Dr. Farook welcomed the members.

Faculty Development Programmes, Basic course in Medical Education, advanced course in medical education were discussed.

Vice Principal Dr. Gopalan Actively took part in the discussion, he said some of the programmes are conducted in Sri Ramachandra Medical College and we have to send eligible people for above said courses during the month of August, September & October.

He also explained how we can conduct these courses in our college campus. Basic course in Biomedical Research was discussed, all the faculties and even PGs has to undergo this course.

All these course certificates are necessary for NMC, NAAC and Institutional Promotion.

The importance of NIRF Registration was discussed.

Students class Timings – Punctuality has to be maintained.

Code of conduct by the students, namely dress code, wearing coat, IDs was emphasized.

The class schedule has to be done as per NMC norms.

CMEs, Guest Lectures, Symposium & Journal Clubs, Conferences, Research Activities – Both by faculties and students were emphasized.

Dr. Farook gave vote of thanks.

## CURRICULUM COUNCIL MEETING

### MINUTES OF THE MEETING

Meeting	Curriculum Committee Meeting
Date	14.08.2024
Venue	Lecture hall – 1
Agenda	<ol style="list-style-type: none"><li>1. Assessment and feedback mechanisms as per CBME curriculum.</li><li>2. Discuss the incorporation of training modules focused on ethical considerations and cultural competence to prepare students for diverse patient populations</li><li>3. Explore the possibility of implementing longitudinal assessment strategies to track student progress over the entire duration of the program.</li></ol>
Members attended	Dean Medical Superintendent HODs of Clinical and Non-Clinical Departments

#### Minutes of the Meeting:

- Explored strategies for providing constructive feedback to students, promoting continuous improvement and self-directed learning.
- Discussed the need for training modules focused on ethical considerations and cultural competence to prepare students for diverse patient populations.
- Explored ways to integrate case studies and role-playing scenarios that address ethical dilemmas and cultural nuances into the curriculum.
- Explored the possibility of implementing longitudinal assessment strategies to track student progress over the entire duration of the program.
- Discussed the benefits of ongoing, comprehensive assessments in identifying areas for improvement and supporting students' professional development throughout their medical education journey.
