Re: Invitation to Participate in Technical Workshop on Building a Sustainable Biorisk Management Consortium of Excellence in Tamil Nadu, 4-6 September 2023

Dear Dr. I. Kannan,

Gryphon Scientific and ICMR-National Institute for Research in Tuberculosis respectfully invite you to participate in a technical workshop on biorisk management (BRM) with the goal of establishing a Consortium of Excellence (CoE) of BRM stakeholders from across Tamil Nadu. This three-day workshop will include researchers and safety professionals from industry, academia, health care, and government laboratories from across the state and be held at the National Institute for Research in Tuberculosis (NIRT) in Chennai, from 4-6 September 2023.

The workshop will begin with a two-day training led by internationally renowned experts on topics such as:

- Best practices in biorisk management
- Biosecurity practices and principles
- Cyberbiosecurity for modern labs
- Waste management and regulatory compliance
- Train-the-trainer training

The third day of the workshop will focus on the process of standing up the CoE. The CoE will continue efforts to build BRM capacity in Tamil Nadu, led by scientists and laboratory workers from institutions across the state. This initial conversation will help collect stakeholder input to charter the organization.

Travel

We seek to ensure participation from institutions across Tamil Nadu. Therefore, a limited number of travel stipends will be available for participants who do not reside in Chennai. Please enquire for more details using the contact information below.

About the Project

Gryphon Scientific is conducting the project in collaboration with regional consultants and with funding from the United States Department of State's Biosecurity Engagement Program. Gryphon Scientific is a research organization in Washington DC, USA with extensive experience in international engagement to improve laboratory biosafety and biosecurity.

RSVP Instructions

If you are interested and available to participate, kindly fill out the brief application linked [here](https://www.surveymonkey.com/r/PC65V67) (<https://www.surveymonkey.com/r/PC65V67>) by **July 17, 2023**. Although this invitation is not transferrable, please do advise if you cannot make it and would like to nominate an alternate from your institution. My colleague, Dr Adam Fleming (afleming@gryphonscientific.com) is available to answer questions related to this workshop and will be happy to assist.

Thank you for considering this opportunity. We hope it will be a productive addition to your efforts to build much-needed biorisk management capacity across the state.

Kind regards,

Gautham Venugopalan
