

A true Voice of a patient (As received by email)

To whomsoever it may concern

My name is B R SESHASAYEE (22/32815) taking treatment for vertigo for past two months with Dr Anand

I wish to record my appreciation and sincere thanks to Dr Anand for his patience, expertise, friendliness in treating me. He constantly tried to find the root cause of the problem and last week he diagnosed the precise reason for vertigo and now I am on medication and hope to recover soon

I have seen more than 20+ doctors before consulting him and I find Dr Anand as a distinguished medical professional. This is my honest feedback.

Regards,

B R Seshasayee
